

Jet-Jet Jancinal

Fresh BSIT Graduate | Aspiring IT Professional

jancinatjetjet@gmail.com • 09499364838 • Cebu City, Philippines • jetdev-seven.vercel.app

PROFESSIONAL SUMMARY

Motivated and detail-oriented BSIT fresh graduate with hands-on experience in web development and AI-assisted workflows. Passionate about frontend development and AI automation, with a strong interest in building smart, efficient digital systems. Open to opportunities in web development, AI/automation, IT support, or any IT-related role where I can apply my skills and keep growing.

WORK EXPERIENCE

Life Wood Data Technology | Cebu City, Philippines | 2026

Intern — Frontend Developer

- Built and deployed corporate website pages using React and Tailwind CSS, implementing responsive service sections and UI components.
- Integrated AI-driven features to improve user engagement and automate content delivery workflows.
- Collaborated with senior developers on frontend debugging and performance optimization for production release.

PROJECTS

Personal Portfolio — Developer | jetdev-seven.vercel.app

A portfolio website showcasing projects and skills as a web developer and system builder. Designed with a focus on clean, interactive UI and smooth user experience, reflecting a modern approach to frontend craftsmanship.

Thrift Studio — Frontend Developer

Archival fashion brand web experience built with React and Framer Motion, featuring cinematic scroll-triggered animations, horizontal sticky gallery sections, and a custom era-based navigation system.
