EDUCATION:

CEBU EASTERN COLLEGE

2022-2026

ABELLANA NATIONAL HIGH SCHOOL

2016 - 2020

CITY CENTRAL ELEMENTARY SCHOOL

2010 - 2016

PROFILE:

Motivated and adaptable Information Technology graduate with hands-on experience in building and deploying modern web applications. Skilled in AI-assisted development and rapid prototyping, with a strong focus on creating user-friendly and functional digital solutions. Passionate about frontend development, web technologies, and integrating AI into real-world applications.

EXPERIENCE:

LIFEWOOD DATA TECHNOLOGY (INTERN)

Contributed to the development and deployment of a corporate website, highlighting company services and implementing AI-driven features for improved user engagement.

PROJECTS:

THRIFTSTUDIO.

A high-end, cinematic web experience for an archival fashion brand. Built with React and Framer Motion, it features sophisticated scroll-triggered animations, horizontal sticky gallery sections, and a custom era-based calibration system.

BT-CAFE

An editorial-inspired web platform for a modern café. Built with React 19 and Tailwind v4, it integrates Spline 3D scenes, cinematic scroll-triggered animations via Framer Motion, and a sophisticated smooth-scrolling experience using Lenis. The project emphasizes visual excellence and modern typography.
